

DISPLAY

A modern kitchen with white cabinetry, a white countertop, and a white backsplash. The kitchen features a sink with a chrome faucet, a white kettle, and a silver container. The floor is made of dark wood. The ceiling has recessed lights. The kitchen is illuminated by warm white LED lights under the cabinets and in the display cabinets.

## HOME OF LED DISPLAY LIGHTING SOLUTIONS

Since 2011 AuraLed has established itself as a market leader in LED Lighting solutions. We are continually developing our products to meet the ever-changing demands of our clients and adopting new technologies to offer new and improved solutions.

We pride ourselves on ensuring we provide a bespoke LED solution on all projects. Quality control, branded diodes, drivers and high-quality fabrication is the norm.

We are also heavily involved with DMX/RGB projects throughout the UK, where we utilise the latest smart lighting technologies such as Alexa, Zigbee and WiFi, as well as hardwire solutions using DMX 512 or Dali controls.

We are proud to offer our clients full turnkey solutions from the design stage through to commissioning.

LED Strip lighting is becoming an increasingly popular solution for both domestic and commercial applications. The flexibility of LED means you can be as creative as you like when it comes to both indoor and outdoor lighting solutions

## COLOUR SELECTION

**2700K** - The lower the Kelvin, the warmer the light temperature.

- Creates a warm, soft glow
- Use in traditional spaces
- Use to enhance brown wood effects etc.

**4000K** - Creates a cooler, more natural light temperature.

- Use in modern kitchens, bathrooms or anywhere you require a clean, crisp look.

**RGB - Colour changing only, no white**

**RGBW (+4000K)** - Colour changing with natural white setting.

**RGBWW (+2700K)** - Colour changing with warm white setting.

## IP (INGRESS PROTECTION) SELECTION

**IP20** - Near to zero ingress protection. Use only indoor, dry areas.

**IP65** - Good level of dust and water protection. Use in kitchens, bathrooms and bar areas. Also anywhere that would be cleaned with a wet cloth or cleaning substance.

**IP68** - Any external project. For submersed projects, please seek advice from our engineers.

## WATTAGE (POWER) SELECTION

- Applies to white (single colour type only)  
Use 4.8w/mtr for feature lighting, creates a 100-200mm wall wash.
- Applies to white (single colour type only)  
Use 9.6w/mtr to provide an adequate light source. Creates a 200-400mm wall wash. Two parallel runs of this can be used in a profile to provide the main lighting.
- Use 14.4w/mtr's on all colour changing strip options. This can be dimmed using a remote, wall controller or app based products.

## DRIVER SELECTION & GUIDELINES

- An LED strip driver is a transformer that reduces the voltage from mains (220-240v) to 24 volts - Which is the voltage of AuraLED's LED Strip.
- Non-Dimmable (standard) drivers run at 80% capacity. E.g. 100 watt driver: max 8mtrs of 9.6w/mtr strip or 16mtrs of 4.8w/mtr strip.
- Dimmable drivers can be run to full capacity. Consider volt drop 1 x 10m run ✓ 2 x 10m run ✓ 1 x 15m run ✗.
- Note: please ensure all drivers are well ventilated.

## LED PROFILE SELECTION

- Aluminium Profile is essential to strip installation as this provides a heat sink to ensure longevity.
- The Profile also dilutes any spotting (use minimum 16mm depth where possible).
- LED Profile ensures a professional, smooth, straight, long-lasting installation.

Mounting	Two-sided Adhesive Tape, Mounting Clip, Pendants
Diffuser	Opal

## KEY FEATURES

Surface-mounted profile - for decorative lighting in offices and homes. The small height of this profile and the flat cover (mounted from the top with a snap-on) give the impression of a very discreet fixture for LED strips and tapes. The AL-SMAP-02 is ideally suited for use as an element of decorative backlighting in furniture and interior decorations.

Specification	
LED strip width:	Up to 12mm
Colour Variations:	Raw Black White (RAL9016)
Mounting	Two-sided Adhesive Tape, Mounting Clip, Pendants
Covers (Diffusers)	Opal

## KEY FEATURES

Aluminium profile for surface-mounting. Perfect for household and office room illumination - lighting of columns and countertops. This is an innovative product on the lighting market. One of the most minimalist and modern designs. The extremely interesting and modern design of the AL-SMAP-03 profile allows us to meet the needs of our customers in the use of LED strips for the creation of light lines.

Thanks to the increased dimensions of the profile's side walls, we can obtain a uniform and more targeted light without visible LEDs (with the use of the opal cover). The profile retains the impression of a discreet fixture for LED strips and is ideally suited for decorative backlighting in furniture and interior decorations.

## KEY FEATURES

Angle profile 45 degrees - for lighting kitchens and stores. Ideal for lighting shelves and countertops. Perfectly suitable for designer connections of two perpendicular surfaces and all applications where the light coming from the profile at a 45° angle is required.

The small height of this profile and the flat cover (mounted from the top with a snap-on) give the impression of a very discreet fixture for LED strips and tapes. AL-CAP-01 is ideally suited for use as an element of decorative backlighting in furniture and interior decorations.

# AURASmart SMART LIGHTING TECHNOLOGY

In today's age of on-demand technology and systems, smart lighting has never been so prominent or essential, especially when it comes to display lighting.

At AuraLED, we have recognised the need to supply our customers with the latest wireless lighting solutions and offer them the technology and support they need to create the ideal lighting environment.

The AuraSMART compatible range of products meets the complex demands of today's lighting designers and installers, bringing the ability to create multi-zoned environments that can be individually programmed and controlled to create a highly flexible solution.

Our AuraSMART wireless systems utilise the global standard 2.4Ghz network, allowing the user to use their existing wifi set up.

With AuraSMART you can control all the zones you want from a remote control, a phone app, or even with your voice using Alexa compatible products. AuraSMART gives the user the ability to change colour, colour temperature, saturation and brightness, enhancing any lighting environment.

Whether it's in the home, in a restaurant or hotel, indoors or outdoors, AuraLED can provide you with the perfect AuraSMART solution. Just look for the AuraSMART logo throughout our product range to identify our smart compatible products.

Specification	
Working Temperature:	-20 -60℃
Voltage:	3V(2*AAA Battery)
Transmission Frequency:	2400-2483.5MHz
Modulation Method:	GFSK
Transmitting Power:	6dBm
Control Distance:	30m
Standby Power:	20uA
Size:	47*19*153mm

## KEY FEATURES

8-Zone RGB+CCT Remote Control. Uses 2.4GHz frequency and GFSK control method. Benefits include low power consumption, long-distance transmitting, strong anti-interference and fast communication rate. Can control compatible smart light colour, colour temperature, saturation and brightness.

Ordering Information	
Model No	Description
AL-RM8Z	8 ZONE REMOTE

Specification	
Working Voltage:	DC12V~24V
Work Temperature:	-20~60°
Output:	6A/Channel
Total Output Max:	15A
RF:	2.4GHz
Transmitting power:	6dBm
Control Distance:	30m
Connection:	Common anode

## KEY FEATURES

### LED Controller

5 in 1 (RGB+CCT / RGBW / RGB / Dual White / Single Color), controlled by wireless remote controller. Can also be controlled with a smartphone and 4G long-distance control (2.4GHz gateway is needed). Dimmable & colour temperature adjustable, colour-changing & saturation control. The controller has auto-transmitting and auto-synchronizing functions.

WARRANTY: 3 YEARS

Specification	
Input Voltage:	AC100~240V 50/60Hz
Power:	AL-LL24 24w AL-LL48 48w
Working Temperature:	-20~60°C
Color temperature:	2700~6500K RGB
Luminous Flux:	AL-LL24 = 1800LM AL-LL48 = 2800LM
Light Efficiency:	AL-LL24 = 75LM/W AL-LL48 = 60LM/W
CRI:	AL-LL24 = >80 AL-LL48 = >70
Control Distance:	30m
Beam Angle:	15°*60°
Illumination Distance:	AL-LL24 = >15m AL-LL48 = >20m
IP Rate:	IP66
Housing Material:	Die-cast aluminium, stainless steel
Product Weight:	2.36kg

## KEY FEATURES

Wall wash lights. 2.4GHz RF remote controllable, WiFi enabled smart phone control. 16 Million colours to choose from, colour temperature, brightness & saturation controllable. The light housing is made of aluminium alloy with anodizing technology on the surface, and stainless steel mirror surface with high light transmittance. Widely used on buildings, bridges, showcases and landscapes, etc.

IP Rating	IP68
Approvals	CE, RoHS, IP
Ambient temperature	-20°C ~ +45°C
Average life	50,000 Hrs
Accessories (optional)	N/A
Applications	Indoor /Outdoor /Landscape / Submersible

## KEY FEATURES

Marine Grade 316 Stainless Steel option with construction rated to IP68. Tempered glass with 120-degree beam. They are designed to add style to floors, bars, walls and ceilings. The design of the light output means no glare even when looking directly at it, making this product perfect for stair facings.

Ordering Information			
Model No	LED Brand	Colour	Description
AL-GL008 RGBW4K	OSRAM	RGBW4K	4000K 1W 120dg 24VDC IP68
AL-GL008 RGBWW3K	OSRAM	RGBWW3K	3000K 1W 120dg 24VDC IP68
AL-GL008 RGB	EDISON	RGB	1W 120dg 24VDC IP68

Specification	
LED Light source	High Power LED
Light Color	WH, WW
Material	SUS316
Optics	S20° / F60°
Power	1W/2W
Power supply	350mA
Dimension	N/A
Weight	N/A
IP Rating	IP65
Approvals	CE, RoHS, IP
Ambient temperature	-20°C ~ +45°C
Average life	50,000 Hrs
Accessories (optional)	N/A
Applications	Indoor /Outdoor / Landscape

## KEY FEATURES

Miniature display light featuring 316 Stainless Steel construction rated to IP65 making this product suitable for both interior and exterior applications. The product is directional and thus perfect for lighting focal features on the wall or within display cabinets. Tempered glass. Incorporates an integrated CREE USA LED white chipset powered at 1W or 2W. Low energy, no maintenance solution.

IP Rating	IP20/54
Warranty (yrs)	3

## KEY FEATURES

### IP20/54 DOWNLIGHT

Smart water-resistant downlights 2.4GHz RF remote controllable, control distance within 30 meters Dimmable & colour temperature adjustable colour changing & saturation. Can be controlled with a Smartphone APP control, long-distance control (2.4GHz gateway is required) Support third party voice control such as Alexa (2.4GHz gateway is required). There is also a tiltable version available AL-DLIP9T

Ordering Information	
Model No	Description
AL-DLIP6 RGB-CCT	6W IP54 DOWNLIGHT
AL-DLIP15 RGB-CCT	15W IP54 DOWNLIGHT
AL-DLIP9T RGB-CCT	9W IP20 RGB-CCT TILT

Specification	
Power:	6W/9W/15W/25W
Voltage:	DC24V (AL-SP9) AC100~240V 50/60Hz (AL-SP6 RGB, AL-SP15, AL-SP25)
Work Temperature:	-20~60°C
Color Temperature:	2700K~6500K
Luminous Flux:	AL-SP6 = 420LM, AL-SP9 = 700LM, AL-SP15 = 1200LM, AL- SP25 = 1700LM
Luminous Efficiency:	AL-SP6 = 70LM/W, AL-SP9 = 80LM/W, AL- SP15 = 80LM/W, AL-SP25 = 70LM/W
CRI:	AL-SP6 =>75, AL-SP9 = >80, AL-SP15 = >80, AL-SP25 = >75
Lifespan:	50000 hours
Beam Angle:	AL-SP9, AL- SP15, AL-SP25 = 15° AL-SP6 = 25°
Illumination distance:	AL-SP9, AL- SP15, AL-SP6 = >10m AL-SP25 = 15m
IP Rate:	IP66
RF:	2.4GHz
Transmitting power:	6dBm
Control Distance:	30m

## KEY FEATURES

2.4GHz Remote and smartphone app controllable.

Supports third party voice control such as Alexa.

16 million colours to choose from, CCT, brightness and saturation controllable. Signal transmitting and mode synchronisation.

Ordering Information	
Model No	Description
AL-SP6 RGB-CCT	6W SPIKE RGB-CCT
AL-SP9 RGB-CCT	9W SPIKE/SPOT RGB-CCT
AL-SP15 RGB-CCT	15W SPIKE/SPOT RGB-CCT
AL-SP25 RGB-CCT	25W SPIKE/SPOT RGB-CCT

Specification	
Power:	6W
Input:	DC24V
Working Temperature:	-20~45°C
Color Temperature:	2700K~6500K
Luminous Flux:	550LM
Luminous Efficiency:	90LM/W
CRI:	>80
Lifespan:	50000hours
Beam Angle:	25°
Illumination distance:	>10m
IP Rate:	IP66
RF:	2.4GHz
Transmitting power:	6dBm
Control Distance:	30m

Switching Power Supply	
Input Voltage:	AC100~240V 50/60Hz
Rated Input Current:	1.5A Max.
Power Consumption (no loading):	0.21W Max.
Configuration:	Conductor
Output Voltage:	DC24V
Rating Load Current:	2.7A
Rating Output Power:	65W
Working Temp:	0~45°C
Storage Temp:	-20~80°C

## KEY FEATURES

### 3X 6W KIT SPIKES RGB-CCT

3 spotlight kit with 2.4GHz wireless remote control, App control, supports third party voice control such as Alexa. 16 million colours to choose, adjustable colour temperature, brightness and saturation. Signal transmitting and mode synchronisation.

Ordering Information	
Model No	Description
AL-GK6 RGB-CCT	3X 6W KIT SPIKES RGB-CCT

Specification	
Power:	AL-FL030 = 30W, AL-FL050 = 50W, AL-FL0100 = 100W
Input Voltage:	AC100~240V 50/60Hz
Working Temperature:	-20~60°C
Color Temperature:	2700K~6500K
Luminous Flux:	AL-FL030 = 2500~2800LM, AL-FL050 = 3500~4200LM, AL-FL0100 = 7500~8500LM
Luminous Efficiency:	85LM/W
Standby Power Consumption:	AL-FL030, AL-FL050 = 1.2W, AL-FL0100 = 0.65W
CRI:	>80
PF:	>0.9
Lifespan:	50000 hours
Beam Angle:	160°
IP Rate:	IP65
RF:	2.4GHz
Transmitting power:	6dBm
Control Distance:	30m

## KEY FEATURES

2.4GHz Remote and smartphone app controllable.  
Supports third party voice control such as Alexa. 16 million colours to choose from, CCT, brightness and saturation controllable. Signal transmitting and mode synchronisation.

- Adaptable and customisable options to match different types of stairs and surroundings.
- Variety of options for step number and length
- The lighting effect makes the stairs an architectural feature of the space
- Programmable control unit to adjust the lighting conditions to your preferences and the needs of your environment
- Lights turn on and off automatically when required

If you are looking to create a focal point for the home or office step up to our motion sensor-activated, intelligent stair lighting system.

This all in one solution, lights up your stairs automatically when you enter the staircase area. The system contains all you need to create impressive stair lights: LED strips, motion sensors, programmable controller and power supply for a quick and convenient installation.
