LED strip width:	up to 12 mm
Colour variations:	Aluminium
	black,
	white (RAL9016)
Mounting:	pressed on to the milled hole or by adhesive mounting
COVERS (diffusers):	Opal(as standard) Walk Over Clear and Full Opal (optional)

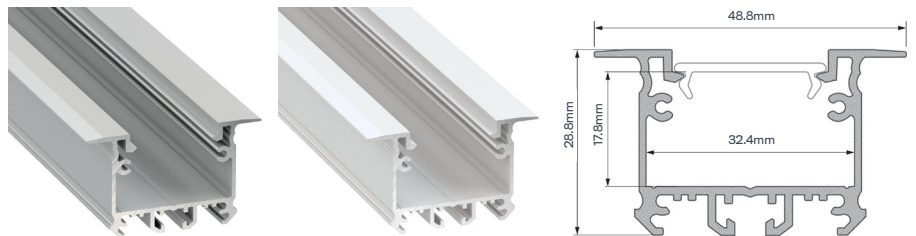

KEY FEATURES

AL-LIP-07 aluminium profile for installation in a groove. Perfect for lighting kitchens and stores - lighting for shelves, countertops. It is an innovative product for installation in hard-to-reach places. One of the most minimalist and modern designs. The use of this profile does not require milling of deep grooves, because the profile is very shallow.
