

## KEY FEATURES

- Operate 4 separate zones and within each zone it is possible to connect multiple receivers.
- The clean glass touch panel features 3 Scene buttons to create different mood effects for your room. instantly recall your preferred settings in each Zone at the touch of a button, for example you might want an evening setting, a party setting and a cleaning setting - each with different levels of lighting in each zone. This can be done in minutes and stored for easy recall.
- Each Zone can be dimmed independently and the last used setting are retained in memory when the unit is switched off for immediate recall next time it is used.
- Please note that this unit requires a live and neutral feed to operate.
