Road & Street Lighting Fixtures

## SENTOR ST

RAL 7037

### Specifications

- IP66 protection
- Aluminium injection body
- Engineered to operate in harsh and hot conditions
- Over **60.000** hours life according to LM80 and TM21 standard
- Up to **153+ lm/W** efficiency
- Input voltage range: **108-305VAC** against voltage fluctuation
- **10kV** surge protection
- **-40°C / +55°C** operating temperature
- Aluminum PCB (2,0 W/mK)
- SMD PCB connector
- Special silicone gasket
- Brass cable gland and brass ventilation valve
- Options for catenary, park/garden, road/street applications
- Measurements according to EN 60598-1 standards
- Photometric measurements according to IESNA-LM-79-08

### Application Areas

- Park & Garden Lighting
- Street Lighting

### Optional

- Marine protective coating
- 5 and 7 pins NEMA socket options
- Sensor, dimming, wireless communication features
- I-10V, DALI automation integration

### Beam Angles
